

G.F.S.V. PHARMACIAE SACRUM

SINDS 1881

Criteria Study Active Certificate (SAC)

29-03-2022

- The certificate should not become a motivation to do a committee/board; hence the requirement of 2 active years.
- The certificate carries the name of Pharmaciae Sacrum and the faculty. The certificate is signed by the praeses of G.F.S.V. "Pharmaciae Sacrum" and the Program Directors of the Bachelor and Master of Pharmacy.
- The committees/boards must have an affinity with the study. The University Council is the only exception to this.
- For all committees, you will be awarded points for the same committee for a maximum of 2 years. In the second year, you only get half of the points.
- A minimum of 12 points must be received from boards/committees. Symposia include the Dies Symposium (2 points) and the Senior Symposium (1 point). Furthermore, the symposium of the K.N.P.S.V. during the Congress also counts (2 points). A KNMP Congress can also be attended (2 points). Attendance at symposia is recorded by the board or the organizing committee by signing attendance lists before the start and after the end of the symposium.
- No points are awarded for participation in the Foreign Trip and the National Company Visit.
- The organizing committee does not receive points for attending the activity they organize. The same applies to the board; board members also do not receive points for attended activities in their board year. Participation in the SEP counts for 4 points under the symposia point total.
- Members of the Support Committee (HC) of the Introduction/Career Day/Dies/Congress/Lustrum Committee do not receive points for this.
- Board members in committees of P.S. or the K.N.P.S.V. do not receive points for these committees in their board year.
- You must request the SAC yourself by indicating to the P.S. board that you would like to receive a SAC. This request should include the committees/boards and possibly the years when they were done. Evidence of committees/boards done at agencies other than P.S. must also be provided (documents from the Programme Committee, etc.). The same applies to attendance at a KNMP Congress. The board will calculate the number of points for you. If the number of points is sufficient, a SAC will be awarded.
- There will be an attachment to the SAC that will list which committees/boards were done. The total number of points will not be listed here. The function will not be listed either. You can choose whether to apply for your SAC when you have 25 points or whether you want to wait until you graduate.
- In some individual cases, the number of points will be negotiable. For example, if a committee is not on the list, or if in your case more points should be awarded for that committee. The board of P.S. has the final say in this.
